

Driver Quick Start

Review route. Start. Arrive. Prove. Except. Message. Depart. Complete.

Step	What to do
Review	Open only your assigned route. Check stop order, timing, address, and special instructions.
Start	Start the route when you are ready to leave with the assigned vehicle.
Arrive	Record arrival when physically at the stop.
Prove	Before leaving, capture every required photo, signature, recipient, or note.
Except	If service fails, use the exception path and record the real reason.
Message	Tell Dispatch when the issue changes timing, route order, or customer expectations.
Depart	Record departure, then continue to the next stop.
Complete	Finish the route only after every stop is completed or resolved.

Safety and privacy

- Do not use another Driver's session or device identity.
- Do not forward access codes, proof images, customer data, or tracking links.
- Stop and contact Dispatch for unsafe conditions or instructions that do not match the stop.
- When asking for support, provide the route/stop ID and request ID - never a password or token.
